Notes: ** these field practicum courses are offered fall, spring and summer in the online program option

Students are strongly encouraged to discuss and design an academic course plan with their advisor. Students should meet with their advisor on a regular basis. Failure to do so could result in not getting courses when needed, in proper sequence or finishing in four years. It is the student's responsibility to know and understand the graduation requirements for their major as presented in the SMSU catalog effective the semester they began their enrollment.

ACCREDITED BY THE

Board of Accreditation
